

FLIP Cards and Dice Matching Game

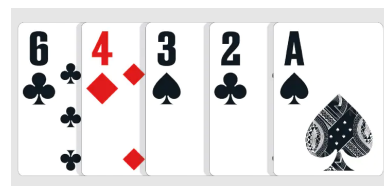

This simple card and dice game works well and can be fun.

Objective

Promote socialization, cognitive recognition and fine motor skills.

Materials

- Deck of cards (using numbers 1-6 only)
- One die per player

Instructions

1. Deal all the cards out face up to the players so each player has the same number of cards. If it does not work out evenly you can discard left over cards.
2. Each player takes turns rolling one die.
3. If the number of the die matches one of the cards, they flip the card over.
4. The first player to flip over all their cards wins!

***Note:** The game can get long so to modify, you can flip over all the cards that match the number of the die. For instance, if you roll a 4, you flip over all the 'four' cards.
