(Questions with Answers)

1. What color are school buses: pink or yellow?

**Answer:** Yellow. Dr. Frank Cyr, a professor at Teacher's College, organized a conference in 1939 that established national school-bus standards and made yellow the go-to color. The doctor is known as the "Father of the Yellow School Bus."

2. What amphibians change their colors to blend into their surroundings: monkeys or chameleons?

**Answer:** Chameleons. Chameleons can see exactly 342 degrees around them, giving them an advantage over potential predators.

3. How many keys does a standard piano have: 49 or 88?

**Answer:** 88. The earliest forms of pianos date back to the 1700s. The modern piano has over 10,000 moving parts inside.

4. What machine helps seamstresses with making or altering clothes: the iron or the sewing machine?

**Answer:** The sewing machine. **Fun fact:** The earliest needles were made of bone and ivory; current needles are made of metals.

5. What tourist attraction is considered the longest wall in the world: the Berlin Wall or the Great Wall of China?

**Answer:** The Great Wall of China. The Great Wall of China is the largest man-made structure in the world, measuring over 13,000 miles long.

6. Which sea creature must stay in motion to breathe underwater: a dolphin or a tuna?

**Answer:** Tuna. The Atlantic bluefin tuna is the largest species of tuna and as a full-grown adult can swim up to 43 miles per hour.

7. Finish the song lyric: *School days, School days, dear old golden \_\_\_\_\_*: blue days or rule days?

**Answer:** Rule days. The song “School Days (When We Were a Couple of Kids)” was originally written in 1907. It was written by Will. D. Cobb and Gus Edwards.

8. Which of the following is **NOT** one of the seven continents: Africa or China?

**Answer:** China. China is a part of the greater continent of Asia.

**Fun fact:** The seven continents combine to cover only about one-third of the total space on Earth’s surface.

9. How many arms does an octopus have: 10 or eight?

**Answer:** Eight. Each of an octopus’ eight arms has the ability to taste, touch, and move without the use of its centralized brain.

10. How many colors are found in a rainbow: four or seven?

**Answer:** Seven. They are red, orange, yellow, green, blue, indigo, and violet.

11. World War II began with the invasion of what country: England or Poland?

**Answer:** Poland. German troops invaded Poland in 1939, beginning the second world war. The six-year war involved more than 50 countries.

12. What kind of airplane has an open cockpit and two fixed wings that are one above the other: monoplane or biplane?

**Answer:** Biplane. Biplanes were used for different purposes, including crop dusting and military combat. The Wright brothers used a biplane during their famous first flight.

13. Whom did John F. Kennedy marry on September 12, 1953: Marilyn Monroe or Jacqueline Bouvier?

**Answer:** Jacqueline Bouvier. Jackie's original dress along with her bridesmaid dresses were destroyed by a broken pipe. The dresses had to be remade by a team of people.

14. What is the largest land animal alive today: the lion or the elephant?

**Answer:** Elephant. The African bush elephant is the largest species of elephant. It can live up to 70 years and weigh as much as 13,000 pounds.

15. Who is responsible for protecting Buckingham Palace: Mounties or the Queen's Guards?

**Answer:** The Queen's Guards. The iconic guards are recognizable by their red coats and bearskin caps. The caps are 18 inches tall.
