

Care in the Later Stage Education Series

**a 5 part, online learning series for
care partners of persons living with dementia**

By attending this series, participants will:

- better understand the physical, cognitive and emotional changes of persons living with dementia in the late and end stages of dementia
- consider quality of life for persons living with dementia in the later stages, and explore methods to retain meaningful relationships
- discuss changes that may occur towards the end of life, and consider decisions & preparations to help care partners prepare for the end stage of dementia
- discuss how to find hope & meaning in the later stages of dementia

Dates: Tuesdays
September 27th, October 4th, 11th, 18th & 25th, 2022

Time: 2:00pm—3:30pm
