

### Flip It Card Game

A simple game that combines elements of bingo and pokeno.

**Number of players:** 4–8

**Object of the game:** Win by being the first player to flip all your cards facedown.

**Supplies:** 2 decks of standard cards with the jokers removed

**Directions:**

1. Keep the two decks of cards separate and shuffle both.
2. Deal out all the cards from one deck faceup so each player has the same number of cards.
3. Keep the second deck in a stack facedown. Pick up the first card and read out and show players the card. **For example:** “Ace of hearts.”
4. The player who has the card that is called (the ace of hearts in this example) should flip it over facedown.
5. Continue calling cards until a player has flipped all their cards facedown and is declared the winner.
