BRANT, HALDIMAND NORFOLK,  
HAMILTON HALTON

**Annual Report 2022/2023**

# Partnerships

**Mary Burnett**  
Chief Executive Officer

As the number of Canadians living with dementia continues to rise, our Society worked on many fronts to address the increasing demand for our services. Partnerships continue to be foundational to this work. Through the

creation of strong partnerships, we have been able to expand our services and enhance the opportunities for persons affected by dementia to participate in meaningful ways. In this Annual Report, you will read about some of these amazing partnerships that are helping our communities better respond to this growing need. This year, we saw the launch of the Landmark Study\* which projected the number of people to be affected by dementia over the next 30 years.

The study also outlined positive actions to support those affected by dementia as well as activities to possibly delay and/or reduce the risk of developing dementia for others. In this report, you we will learn

\* 2022 Alzheimer Society of Canada / The Landmark Study – Navigating the Path Forward for Dementia in Canada

how our Society is actively implementing its following key recommendations:

- Reduce stigma and raise public awareness about dementia
- Grow supports and services to fill the gaps in health care
- Continue building relationships and resources for diverse communities
- Engage people living with dementia and their care partners
- Collaborate with other organizations on issues related to dementia and dementia care

We could not achieve much of the success you will read about in this Annual Report without the support of our donors and volunteers. Thank you for helping us to continue to meet the increasing demands on our services.

Finally, I want to express my deepest gratitude to the incredible staff and board teams with whom I have had the privilege of working these past 16+ years at the Alzheimer Society. This role has been the most rewarding one of my career, and I leave the organization filled with pride, optimism and hope for its future.

*Mary Burnett*

## Our work with Ontario Health Teams

Local Ontario Health Teams (OHTs) are maturing across our Region. Our Society participates in four (4) local OHTs; Burlington OHT, Brantford/Brant/Norfolk OHT, Connected Care Halton, and the Greater Hamilton Health Network. Ontario Health Teams are creating new ways of organizing and delivering care that is more connected to patients in their local communities. The goal is for health care providers (including hospitals, doctors and home and community care providers) to work as one coordinated team – no matter where they provide care. The Alzheimer Society is proud to be a partner in this important work.

A the "Inauguration event for Indigenous Garden with Miinikaan" ('the SEED in Ojibwe) by Grandmother's Voice at the Beaty Branch Public Library in Milton.

# BOARD OF DIRECTORS

On behalf of both boards, we would like to extend our sincere congratulations to Mary Burnett on her upcoming retirement after nearly seventeen years leading our two organizations. Mary's vision and leadership has been instrumental in advancing our mission and her contributions to the communities we serve have been extraordinary. We are pleased to announce that Michelle Lewis has been selected as the next CEO for the Alzheimer Society and the Alzheimer Society Foundation. Michelle was previously the Executive Director of the Young Caregivers Association and simultaneously worked on a part-time basis as Director of Strategy and Partnerships for the Society. Michelle is an outstanding leader who will continue to uphold the mission, vision and values of our organization, and build on Mary's wonderful legacy as we continue to support those living with dementia and their loved ones.

We would also like to recognize our exceptional board colleagues and the tremendous work of the CEO Search Committee, who led a very thorough and successful search process. Both boards are committed to ensuring an equally successful CEO transition.

We also want to express our heartfelt gratitude for the generosity of our donors. Your support plays a pivotal role in enabling us to fulfill our mission and make a meaningful impact in the community. Thanks to individuals like you, we are able to initiate and sustain programs that address pressing challenges, create opportunities, and foster positive change for people living with dementia in our communities. We want you to know that your trust in us is well-placed, and we are committed to being good stewards of the resources you have entrusted to us.

On a final note, we would like to express our deep appreciation to the incredibly dedicated staff and volunteers of the Society who undertake purposeful work each day to support persons affected by dementia in our communities. Thank you!

Teresa Domladovac and J.P. Mackay

## Alzheimer Society Board of Directors 2022-2023

Chair: J.P. Mackay

Vice Chair: Claire Kislinsky

Secretary/Treasurer: Cindy Mercanti

Past Chair: Vickie Baird

Chief Executive Officer: Mary Burnett  
(Ex-Officio)

Directors:

Dr. Sandra Belfry

Scott DeGroot

Mieke Ewen

Janet Gasparelli

Jason Lounsbury

Kevin Linder

# OUR IMPACT

*“You have been there for our family during our mother’s journey through dementia, and your knowledge, kindness, and empathy has been crucial to navigating successfully through this difficult process. I can honestly say that during the toughest moments, your compassion and advice, along with arranging services, was vital to our family’s understanding of the disease and provided information and options that enhanced quality of life for our mom and made coping so much easier for everyone.”*

## Client Satisfaction and Impact Survey

Persons Living with Dementia & Care Partners

**Extended time at Home:** 75% of those survey said the connection with their local AS ( Alzheimer Society) helped provide care at home longer.

### Impact of AS supports on distressing situations.

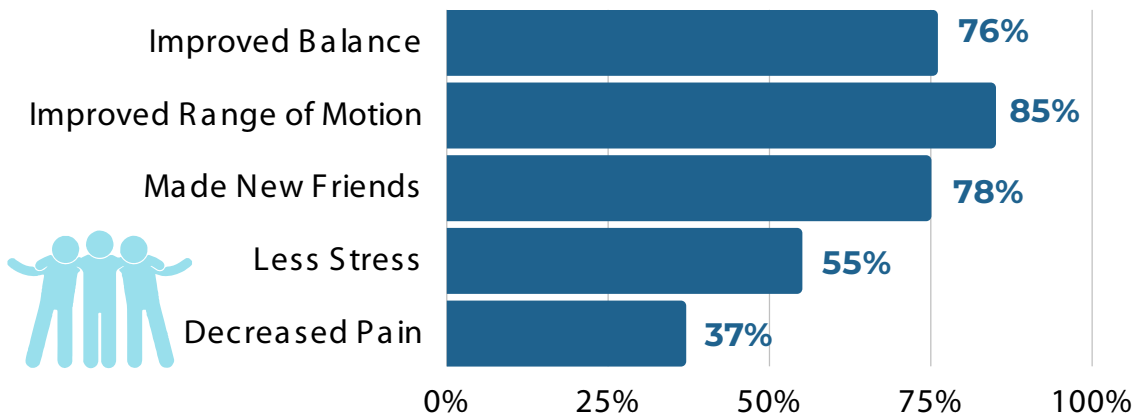

Assisted me in times of need	86%
Supported me through a distressing situation	81%
Helped me avoided distressing situations	75%

### Impact of AS Supports on their capacity of care

I feel more confident as a CP	85%
I am able to manage my daily routine and plan ahead for new challenges	85%
I am better able to advocate for my own needs as a CP	75%

**100%** Of our referral parties said they would recommend the Alzheimer Society to family and friends

## AS A RESULT OF THIS PROGRAM PARTICIPANTS REPORTED...

"I feel more confident in doing things."  
"I feel better and stronger."

## MINDS IN MOTION

92%  
Enjoyed participating in the program

92%  
Felt they were treated with respect

77%  
Felt the program improved general well-being

"Having someone come out on a regular basis to help seniors keep moving is an important aspect to have a better quality of life."

"This group is so beneficial and is what this town needs for seniors to get out and have exercise and social time."

"I really enjoy and appreciate the classes. Of course all my doctors approve!"

"We have grown to realize the belonging to a group or club and meeting or socializing with others is key to longevity. Making sure you keep moving is very important and is key to health and happiness."

# PARTNERSHIPS

## Ressam Gardens

The Alzheimer Society has partnered with Ressam Gardens, a unique memory care community and retirement home, to open a satellite office in Hamilton! Ressam Gardens uses high-technology, daylight simulating lights, and dementia-friendly design elements to offer an innovative dementia-centered living environment. The satellite office provides a space for the counselling team to meet with clients, as well as a new group room to facilitate support groups. Further, this partnership has permitted the opportunity for our Public Education Team to provide in-depth training and education to the Ressam Gardens staff to ensure dementia-centered care is provided to its residents.

## True Experience

The Alzheimer Society has partnered with True Experience (TE), a supportive housing and community work non-profit organization, to establish a new program space in Dunnville. The Alzheimer Society serves many clients in Dunnville and this new location allows us to better provide face-to-face services to this community. We will be providing in-person counselling, support groups, and education sessions at TE. Further, this partnership has permitted a number of clients to join TE's Pantry Program, a nine-session cooking program where persons living with dementia and their care partners learned to prepare new meals and take the meals home!

## Art Gallery of Hamilton

The Alzheimer Society was fortunate to secure a solid community partnership in a time of need with the Art Gallery of Hamilton. In September of 2022 the Creative Expression program was funded

through a Ministry of Seniors and Accessibility Community Grant allowing the re-launch of this successful program across all our catchment areas. The quick turnaround from funding to program launch was only possible with the facilitator support provided by the Art Gallery of Hamilton. We look forward to this continued partnership in the years to come.

## Compass Community Health

Compass Community Health opened its doors in 1987 to respond to the unique health needs of individuals and their families in North Hamilton. The health center now supports clients throughout Hamilton

and beyond. Their programs and services include primary care, mental wellness, health wellness, community health promotion and pathways to education. Counsellors are available to clients on-site every Monday. Our staff help link the clients with a diagnosis of dementia or concerns with their memory to Alzheimer Society supports and services. They provide a person-centered approach for the clients with on-the-spot information sharing and education to support their needs.

## Diverse Communities Outreach in Halton

Halton has become increasingly diverse in terms of ethno-cultural, linguistic populations. These communities traditionally have had limited access to “mainstream” health related organizations and services due to factors like language barriers, system navigation challenges, negative experiences due to discrimination or racism. Reaching ethno-cultural, linguistic communities is among the Alzheimer Society’s strategic priorities to provide services to underserved and/or equity seeking populations. Since March 2022, a half-time Diversity Outreach Coordinator has undertaken community engagement and partnership building activities in Halton. Examples include, but are not limited to:

### Memberships:

- Halton Newcomer Strategy
- Halton Multicultural Council - HMC Connections
- Halton Equity and Diversity Roundtable
- Halton Regional Police Tea and Talk- Older Adult Support Network
- Halton Age Friendly Network and Connection in Action Roundtable
- Community Wellness Hub Oakville – Community Partner

## Hamilton Council on Aging (HCoA)

The Alzheimer Society collaborated with the HCoA to raise awareness of dementia and create more dementia friendly communities in Hamilton and Haldimand. A strong anti-stigma campaign was also launched called Faces of Dementia, in which persons living with dementia share their stories about how they are living with the disease. ([www.facesofdementia.ca](http://www.facesofdementia.ca)) Our Foundation funded some of the research undertaken as part of this project, and is pleased to enter into a new agreement with HCoA to spread this work into Halton and Six Nations.

## Seniors at Risk in Hamilton (SaRiH)

With the closure of Catholic Family Services in Hamilton, the Good Shepherd, St. Matthew's House and the Alzheimer Society came together to create an integrated approach to ensure the continuity of supports for seniors at risk in Hamilton. The 3 agencies meet weekly to review new referrals, and to ensure that people are being connected to the right service.

## Thrive

The Thrive Group has helped to enhance our leadership training. This investment is helping us develop our leadership skills to respond to the ever growing and more complex healthcare system.

## Our Clients

We could not do what we do without being in partnership with those we serve. As our clients have clearly shared, “nothing about us without us”. We have three client advisors serving on our board of directors, a Client Advisory Committee to inform our programs and services, and a peer-led support group for those living with dementia.

## Home and Community Care Support Services

Our Responsive Behavioral Specialists and our Psychogeriatric Resource Coordinators are using office space at the Hamilton location and are able to collaborate with Care Coordinators on cases. We also worked closely with our colleagues at HCCSS to provide in-home respite services for those on the crisis list for Long Term Care.

## Space to offer Creative Expressions

The art program called Creative Expressions was able to reach further into the community because of space provided at ARTC (Adult Recreation Therapy Centre) in Brantford, The Olde Town Hall in Waterford, Sackville Hill Senior Recreation Centre, FirstOntario Art's Centre in Milton and the Lynnwood Arts Centre in Simcoe.

## DREAM Team Expands to Norfolk General Hospital

The Dementia, Resource, Education, Advocacy, and Mentorship (DREAM) Team aims to intervene early and help people living with dementia and their care partners receive the support they need to return home safely after a hospital visit. The Alzheimer Society was delighted to receive approval to take this successful model to Norfolk General Hospital. The DREAM Team is a collaboration of Alzheimer Society, hospital and Home and Community Care staff.

In its first 15 months of operation at Brantford General Hospital, interventions from the DREAM Team diverted 156 hospital admissions – more than half of those with dementia who came to the Emergency Department. Diversion rates are similar at Norfolk General since the program started there in January. The success of the DREAM Team is spreading through the Ontario Health West Region. We are pleased to share that additional DREAM Team are being developed in other communities, including our own expansion to Joseph Brant Hospital In Burlington and St. Joseph's Hospital in Hamilton.

Scott Johnson, Managing Director, Halton for Home Instead, has been a generous supporter of the Alzheimer Society over a span of 14 years, raising over \$20,000 to support programs. In 2022, Home Instead awarded franchises that excelled in their respective communities over the span of the pandemic with a \$30,000 cash award. Scott received one of these awards for his franchise's success and generously gifted it to the Alzheimer Society.

Oak Gables Golf Tournament

Simcoe Lions Club

Lise Gillis is a wonderful friend of the Alzheimer Society. Lise stopped by our Burlington office to donate proceeds from her Wine Survivor Fundraiser that raised \$7,285.00 in support of local programs and services. Thank you Lise!

# VOLUNTEERS

In the past year, our volunteer team grew 28%, from 106 to 136. These volunteers provided 4,491 hours of service. They served as members of our Client Advisory Committee, and the Foundation and Society Boards. They supported Special Events, Teleconnect, Social Recreation, our Resource Libraries, Breakfast Clubs, Feedback Sessions, and Administration. Despite the impact of Covid-19, our volunteer program is rebuilding and continuing to enjoy the gifts, talents, and skills that they bring to the Alzheimer Society. Thank you!

## GRANTS

### Creative Expressions

Funded by

- The Ministry for Seniors and Accessibility (Gov of Ontario)
- Catherine Booth and Michael Kirk Social Recreation Fund
- Alzheimer Society of Ontario

Creative Expressions participants view and discuss works of art each week, followed by the opportunity to create their own works of art with various media. No prior art experience is needed. Participants share their perspectives and understandings about art and learn about each other through the connections they make to their own lives.

### In-Home Social Recreation

Funded by the New Horizons for Seniors Program (Gov of Canada)

The In-Home Recreation program provides the opportunity for persons living with dementia to participate in preferred recreation and leisure engagements with volunteers. This program is based on 1:1 interactions, which stimulates the social, cognitive, physical, vocational, emotional, and/or spiritual domains, creating meaningful experiences through recreation.

## Highlights of the year include:

The Society saw an increase in base and one-time funding from Ontario Health West in Fiscal 2023. Overall decreased Ontario Health West funding is a result of one-time funding received and flowed to partner agencies in the prior year.

Donor revenue, included in AS Foundation revenue, remains strong at \$1,386,751 (\$934,411 in Fiscal 2022). Fundraising revenues have bounced back from the impact of the pandemic, on top of an increased amount of revenue sharing included in the fundraising line from the Alzheimer Society of Ontario.

Operating expenses saw a decrease due to staffing shortages at the beginning of the year. The Society had full staffing by the end of the fiscal year.

As in previous years, the Foundation invests surplus funds with Connor, Clark & Lunn Private Capital Ltd. with the oversight of the Board of Directors. The desired outcome is to create an ongoing income stream to support the work of the Society not funded by the government, and to help sustain operations through difficult times.

The combined net revenue for the Alzheimer Society and the Alzheimer Society Foundation for the year ended March 31, 2023 was \$1,115,051

REVENUE	Mar. 31, 2023	Mar. 31, 2022
Ontario Health West	8,827,338	9,322,088

Professional fees	15,264	13,295
<b>TOTAL REVENUE</b>	<b>10,136,696</b>	<b>10,838,940</b>

<b>NET COMBINED</b>	<b>1,115,051</b>	<b>254,152</b>
---------------------	------------------	----------------

Through the Alzheimer Society Foundation's Research Grant initiative, we are proud to support innovative research projects that are working to make a difference in the lives of people living with dementia and their care partners.

## Research Summary 2022-2023

### Jeremy Walsh, PhD Assistant Professor McMaster University

**The impact of acute oral ketone monoester supplementation on resting-state connectivity in adults with memory complaints.**

Jeremy Walsh PhD is leading a research project that will examine how a ketone drink improves brain function in regions affected by Dementia. Dementia develops slowly over the years because the brain cannot properly use blood sugar for energy causing negative changes to a person's memory. The ketones in the drink are used by the brain for energy instead of sugar. This study is a critical first step to see if ketones can protect brain health in people with higher dementia risk.

---

### Bradley Baranowski, Brock University

**Effect of beta hydroxybutyrate administration on amyloid precursor processing and cognitive performance.**

Bradley Baranowski was awarded a grant for a research project to determine the effect of a single dose of ketones supplementation on BDNF content (brain-derived neurotrophic factor) and the effects on cognition. Finding methods that can increase BDNF content may provide important therapies to reduce/ prevent neurodegenerative and metabolic diseases. Previous research demonstrated that ketones can reduce beta-amyloid plaques (key hallmark of Alzheimer disease).

## Our Mission

People with dementia are at the centre of everything we do. The Alzheimer Society leverages its own and community resources to deliver health promotion, advocacy and support services to people with dementia and their care partners.

We embrace the Alzheimer Society of Canada's mission to alleviate the personal and social consequences of Alzheimer's disease and other dementias and to promote research.

## Our Vision

People affected by dementia live well as vital and integral members of their community.
