

# 6-5-4 Dice Game

This is a fun and engaging activity for seniors! It promotes social interaction and cognitive agility within the framework of a simple and enjoyable game.

## Objective

Roll five dice and aim to get the numbers 6-5-4 within three attempts. If successful, earn points equal to the sum of the remaining two dice. The first player to reach 50 points wins.

## Setup

Gather any number of players, providing each with five dice.

## Gameplay

Players take turns rolling the dice, with three rolls per turn. This game encourages friendly competition and laughter.

## Scoring and Winning

Keep track of points to see who's in the lead. The game ends when a player accumulates 50 or more points. Celebrate the winner, and don't forget to applaud everyone's efforts.

## Additional Rules

You can keep points earned after the first successful 6-5-4 roll, or roll again for a chance to earn higher points. All three attempts can be used, regardless of success on the first roll.

Have fun!
